

# Chemistry & Forensic Science

## Where Are They Now?

**A degree from Saint Anselm College can be the beginning to many career paths. Of graduates since 2009, 99% are employed or engaged in service; 42% have attended graduate school. Of those that are currently in jobs, 80% are employed in their field.**

### Class of 2017

- Eight chemistry graduates
- Four forensic science graduates
- Two committed to service
- Five pursuing graduate school - Northeastern (Engineering), University of Northern Colorado (Chemical Education), Worcester Polytechnical Institute, UMass Lowell, Columbia (Nursing)

### Class of 2016

- Eight chemistry graduates
- Seven forensic science graduates
- One pursuing medical school - Dartmouth Medical School
- Four pursuing graduate school - UMass Lowell, Notre Dame (ESTEEM program), University of Vermont, Michigan State University
- One returned to graduate school - University of California, Irvine
- Employment has included Citizens Bank Anti-Money Laundering, PepsiCo, Founders Science Group, Manchester Police Department, Booze Allen Hamilton, CrossCountry Mortgage, VHG Labs

### Class of 2015

- Four chemistry graduates
- Two forensic science graduates
- One received her PharmD from the Massachusetts College of Pharmacy and Health Sciences
- One pursued a MA at William & Mary and is currently pursuing a PhD at Bowling Green State University (OH)
- One enlisted in the US Coast Guard
- One is in medical school at Saint George's University
- Two are employed in the chemistry field

### Class of 2014

- Six chemistry graduates
- One forensic science graduate (first year of program)
- One committed to volunteering
- Three pursuing graduate school - Dartmouth, University of Cincinnati, University of California, San Diego
- Three pursued careers in chemistry - FoodState Inc, Waters Corporation, JMPS; one in forensic science - Medical Examiner's Office, Maricopa County

### Class of 2013

- Two chemistry graduates
- One received his PharmD from Massachusetts College of Pharmacy and Health Sciences
- One pursued a career in chemistry - BioConcept Laboratories

### Class of 2012

- Eight chemistry majors
- Three have pursued graduate/professional school - University of New England (Pharmacy), William & Mary, Clemson University
- Two have since returned to school - UMass Amherst, Tufts University (Physician Assistant)
- Careers have included - Patriot Ambulance, Underwriters Laboratories, Estee Lauder

### Class of 2011

- 4 chemistry graduates
- Three pursued professional chemistry careers - Medical Isotopes
- One is currently a high school chemistry teacher

### Class of 2010

- Three chemistry graduates
- Two pursued graduate school - Colorado School of Mines, University of Cincinnati
- Careers included Doosan Fuel Cells America, PAREXEL

### Class of 2009

- Four chemistry graduates
- Three pursued graduate school - Bucknell University, UMass Amherst, Florida State University
- One is a high school chemistry teacher at the Holy Trinity School, Washington DC
- Careers at JOEL USA, MIT Lincoln Labs

### Classes before 2009

- Students have enrolled at graduate schools including Princeton, University of Indiana, University of Rhode Island, University of Oregon, among others
- Graduates have pursued careers at Beyond Benign (Co-founder), Instrumentation Laboratory, Western New England College, Dottikon Exclusive Synthesis AG, Cabot Corporation, Northern Analytical Laboratory, among others
