Enrollment

On this page, enter the number of candidates for an initial teaching credential who are enrolled in the initial teacher preparation programs within your institution of higher education (IHE) or organization. **Do not** report on the total number of students enrolled in the entire IHE. **Do not** include individuals who currently hold a teaching credential and are seeking additional licenses or endorsements, or individuals preparing for school-based careers other than classroom teachers (e.g., administrators, guidance counselors).

The Department recognizes that in many cases, candidates voluntarily report their race/ethnicity and gender data, and that in some cases, candidates may choose not to report this information. Please report on the race/ethnicity data you have available, though the data may not be complete. It is not expected that the sum of the enrolled students reported by race/ethnicity or by gender will necessarily equal the total number of students enrolled.

If your IHE offers both traditional and alternative programs, be sure to enter the candidates enrolled in the appropriate reports. For the traditional report, provide only the candidates enrolled in traditional programs within the IHE. For the alternative report, provide only the candidates enrolled in the alternative programs within the IHE.

After entering the enrollment data, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:

Enrollment

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and *not* an enrolled student.

Total number of students enrolled in 2016-17	131
Unduplicated number of males enrolled in 2016-17	18
Unduplicated number of females enrolled in 2016-17	113

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled. ([§205\(a\)\(1\)\(C\)\(ii\)\(H\)](#))

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2016-17. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

On this page, enter the total number of individuals who completed the program in AY 2016-17 and the two prior academic years. If you submitted an IPRC last year, the number of program completers for the two prior academic years are pre-loaded from your prior year's report.

A program completer is a person who has met all the requirements of a state-approved teacher preparation program. Program completers include all those who are documented as having met such requirements. Documentation may take the form of a degree, institutional certificate, program credential, transcript or other written proof of having met the program's requirements. In applying this definition, the fact that an individual has or has not been recommended to the state for initial certification or licensure may not be used as a criterion for determining who is a program completer.

An individual cannot be classified as both enrolled and as a program completer at the same time. An enrolled individual is not a program completer. Once an individual has met all the requirements of a state-approved teacher preparation program and becomes a program completer, the individual is no longer classified as enrolled.

After entering the program completers, save the page using the floating save box at the bottom of the page.
