With the increasing rates of obesity in the US, the incidence of diabetes has reached epidemic proportions. According to the CDC, 28 million Americans have diabetes and 89 million have pre-diabetes. Approximately 7 million of those with diabetes are unaware.

Diabetes is a multi-faceted disease with serious complications arising from untreated or inadequately treated diabetes.

This program will discuss the signs and symptoms of diabetes, the various non-pharmacologic and pharmacologic treatments available for this condition.
