

Registration for Macintosh/Apple (Computers, iPads and phones)

September 2017

[QuickConnect Tool Configuration](#) or [Manual Configuration](#)

Register Macintosh/Apple using QuickConnect Tool

You must be an administrator on your computer to perform these steps.

1. Connect to the **AnselmWIFI** network.
2. Open a web browser. Please type the following URL <https://netlogin.anselm.edu>
3. To register, click on **AnselmSecure QuickConnect**.

4. Click **Start** to download and run QuickConnect.
5. Click on **Anselm Secure Configuration**.

6. Follow the directions to run the AnselmSecure configuration. You may need to allow changes to be made to your computer by supplying your admin credentials.
7. Upon successful registration, remove/forget **AnselmWIFI** wireless network from you device and connect your device to **AnselmSecure** wireless network. Some devices may switch over automatically. Restart your browser.

Register Mac/Apple using Manual Configuration

How to Connect to AnselmSecure with MAC OS X

You must be an administrator on your computer to perform these steps.

These instructions are for MacOS 10.5. Your MacOS should require the same basic information.

1. Make sure that the wireless card is on by clicking the AirPort icon on the menu and selecting the **Turn AirPort On** option.
2. Select **AnselmSecure** SSID from the list of available networks in the AirPort menu.
3. Type your Anselm username and password. Click **Join** to connect to the wireless.
4. When you connect to the wireless network with the AnselmSecure SSID, you may see a certificate warning, **Not Trusted**.
5. Check to make sure the certificate name is **netlogin.anselm.edu** then click **Trust**. You may receive a prompt for your device credentials to save this certificate.

How to Connect to AnselmSecure with iOS

1. Go to **Settings** and tap on **Wi-Fi**
2. With Wi-Fi enabled, choose AnselmSecure network.
3. Type your Anselm username and password. Click **Join** to connect to the wireless.
4. Certificate trust pops up. Check to make sure the certificate name is **netlogin.anselm.edu**. Click **Trust** to complete connection.
