Student Outcomes

As a part of the recently revised Higher Education Opportunity Act (2008) institutions must now provide their completion and graduation rate information. This page contains data on six-year graduation rates of degree-seeking first-time, full-time undergraduate students. The six-year graduation time frame is the equivalent of 150 percent of the expected four years allotted to graduate.

Six year graduation rates for the of first-time full-time undergraduate students who entered Saint Anselm College in the fall of the given year.

Combined Cohort 6-year Graduation Rates by Race/Ethnicity – 2013, 2014, 2015

Graduation rates are calculated according to the number of students in an entering fall cohort who graduate within six years of entering. Students who transfer into the institution are not included in these counts. **Because of the small numbers of students in some of the race/ethnicity categories, three years' worth of data have been combined in order to smooth out some of the year-to-year variations and minimize potential identification.**
