

**SAINT ANSELM COLLEGE SURVEY CENTER
FEBRUARY 2019 POLL
ELECTED OFFICIALS FAVORABILITY/JOB PERFORMANCE**

These results are from the Saint Anselm College Survey Center poll based on interviews with 600 randomly-selected registered voters in the state of New Hampshire. Interviews were conducted by landline and cellular phone between February 6th and February 9th. The overall survey has a margin of sampling error of 4.0% with a confidence interval of 95%; the margin of sampling error on questions specific to the 1st and 2nd Congressional Districts is 5.8% and 5.6% respectively. Respondent data are weighted against demographic characteristics of the universe of New Hampshire registered voters.

For analysis of data related to President Trump favorability and job approval, please see anselm.edu/new-hampshire-institute-politics/february-6-9-2019.

New Hampshire Institute of Politics Executive Director Neil Levesque summarized the results, saying, “New Hampshire’s elected officials start off this cycle in strong shape. Governor Chris Sununu is currently the most popular politician in the state, with 64% of voters reporting a favorable impression of him. Senators Jeanne Shaheen and Maggie Hassan are at 57% and 53% respectively. In the House delegation, Freshman Congressman Chris Pappas has carried over his personal popularity from the campaign and is at 56% favorability, with Congresswoman Annie Kuster at 46%.”

Levesque concluded. “New Hampshire voters also approve of the job the Governor and Congressional delegation is doing. Sununu has a 70% job approval, followed by Shaheen at 60% and Hassan at 55%. Pappas sits at 49%, while Kuster continues to build on her growth over the last year and is now at just over 50%. The popularity of both Sununu and Shaheen as the senior member of the Congressional delegation suggests that New Hampshire is still very much a swing state where quality of candidates and campaigns can determine the outcome of races.”
