The days of clucking like a chicken are over. Paul Ramsay’s “Mind Games-Throwback Edition” show breaks the mold of stage hypnotism. Using an interactive app, audience members steer the course of the show by voting on what they want to see happen on stage. Paul is a graduate of the University of New Hampshire. After teaching high school English for several years, he returned to his alma mater and worked in Residential Life. Paul’s experience as an educator, combined with his talents as a hypnotist, make him a perfect entertainer for the college market. He connects well with college students and understands what student affairs professionals need for appropriate entertainment. “Mind Games” approaches stage hypnotism from a whole new angle. It’s interactive, original entertainment that transforms viewers into a cast of characters before your very eyes! You’ll talk about what you see long after the show is over.
