

Pre-Health Alumni Where Are They Now?

Saint Anselm College is the first step for many students to a career in health care. Over the past twenty years, Saint Anselm has sent 115 students from a variety of majors on to graduate programs through our Pre-professional Health Program. Here's a quick snapshot of the last few years:

Class of 2018

- One enrolled in Medical school
- One student was accepted into a Physician's Assistant Program
- One student was accepted into 3 medical schools during a GAP year

Class of 2017

- Two enrolled in Medical school
- One student enrolled in Dental School
- Students enrolled in schools including Tufts University School of Dentistry and University of the Incarnate Word (UIW) School of Osteopathic Medicine

Class of 2016

- Two students enrolled in Dental school
- Four students enrolled in Medical school
- Students enrolled in schools including University of Vermont, University of Florida, Dartmouth Medical School, and Tufts University School of Dentistry

Class of 2015

- One student enrolled in Dental school
- One student enrolled in Medical School
- Three students enrolled in Pharmacy School
- One student enrolled in a Physical Therapy Program
- Students enrolled in schools including A.T. Still University, Massachusetts College of Pharmacy, Northeastern Physical Therapy, and Boston University School of Dentistry

Class of 2014

- Three students are attending medical school
- One student is attending a Physician Assistant Program
- Students enrolled in schools including NY Institute of Technology College of Osteopathic Medicine and others

Class of 2013

- One student is attending dental school
- Three students attended Medical school
- One student attendant Veterinary School
- One student attended Optometry School
- Students enrolled in schools including Iowa State University, Nova Southeastern School of Dentistry, University of Central Florida School of Medicine, Pennsylvania College of Optometry, and others.

Class of 2012

- One student attended Podiatry school
- One student attended a Physician Assistant Program
- One student attended Pharmacy School
- Students enrolled in schools including Tufts University of Medicine, Massachusetts College of Pharmacy, and Barry University
- One student attended Medical school

Class of 2011

- Two students attended Medical school
- One student attended Dental school
- Three students attended Veterinary school
- Students enrolled in Ohio State University, University of Minnesota, Royal Veterinary College, among others

Some of our students take advantage of GAP years to gain experience, improve academically or to determine the best career path. GAP year experiences have included: Peace Corps, Post-baccalaureate programs, and positions including research associate, CNA, EMT, and medical assistant.

Why Saint Anselm? Just ask our alumni!

"The experience I received at Saint Anselm prepared me for veterinary school and my career beyond. All of my professors cared deeply for my success and I would not be where I am today without their support. Saint A's felt like a family and I could not have imagined myself going anywhere else."

~ Sarah Senechal, SAC '13;
Iowa State University College of Veterinary Medicine '17

"My experience at Saint Anselm is at the core of my success as a practicing dentist. The research opportunities available in the biology department allowed me to stand out when applying to dental school, while the curriculum and small class sizes prepared me to excel in the didactic and clinical portions of my dental training at Tufts. Saint Anselm drove my desire to succeed and facilitated my development from student to professional."

~ Greg Josephsen, SAC '09;
Tufts College of Dental Medicine '13

"What separates Saint Anselm College from other institutions is the level of commitment of the professors, a diverse and advanced curriculum, and research opportunities. My professors were exceptional and some of the most enthusiastic and passionate faculty I have encountered. Their doors were always open for my questions and concerns and they had a genuine interest in every student. Saint Anselm's science curriculum taught me how to study, manage time, and prepared me for taking the MCAT and performing on medical school exams. The research opportunities developed my critical thinking and technical skills, allowing me to conduct meaningful research and write manuscripts."

~ Ryan King, SAC '13;
University of Central Florida College of Medicine '17

"Saint Anselm College jump started my future career as a physician. My time in the biology research labs prepared me to develop my own research projects, and service opportunities kindled my lasting interest in global health. These experiences motivated me to join the US Navy, where I will serve as a physician and Naval officer. "

~ Ann Lehto, SAC '14; NY Institute of Technology
College of Osteopathic Medicine '18

"Saint Anselm could not have prepared me better for my future career as a physical therapist. During my time here I was challenged, supported, and really taught how to think critically. My experiences in the classroom, volunteering as much as possible, and my time on the football field all helped me become the person and future professional I am today. Saint Anselm gave me the skills I need to pursue the career that I am passionate about."

~ James Murphy, SAC '15;
Northeastern University Physical Therapy '19
